Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 44-64, drawn to a process for treating multi-element wastes.

Group II, claim(s) 65-84, drawn to an apparatus for treating multi-element wastes.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: In Group I, the special technical features include the presence of chlorine, bromine or a mixture thereof and of a halogenation catalyst, these features were not required in Group II. Also, in Group II, the special technical features include the presence of a heating means for the halogenation chamber while Group I does not require any heating for the halogenation step.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
